

# STOP!

Long time ago some persons formed a we and got this land. We who live now got it from those ancestors. I do not know how they got it. Perhaps they fought and murdered people.  
Anyhow it is our land now.

# Our land!

# NOTICE

**UNAUTHORIZED  
PERSONS  
KEEP OUT**

This land is only for those who belong here.  
Everyone else shall be somewhere else.  
It is their problem if they do not have a land.

We have enough to do as it is. We must charge  
our cell phones and learn new cooking recipes.  
The car needs washing and we must plan our  
holiday.

We have neither money nor time for others.

## None is welcome!

# Capitalism

In reality this land is not mine, nor all Swede's. Not the right wing politician's, nor the working people's.

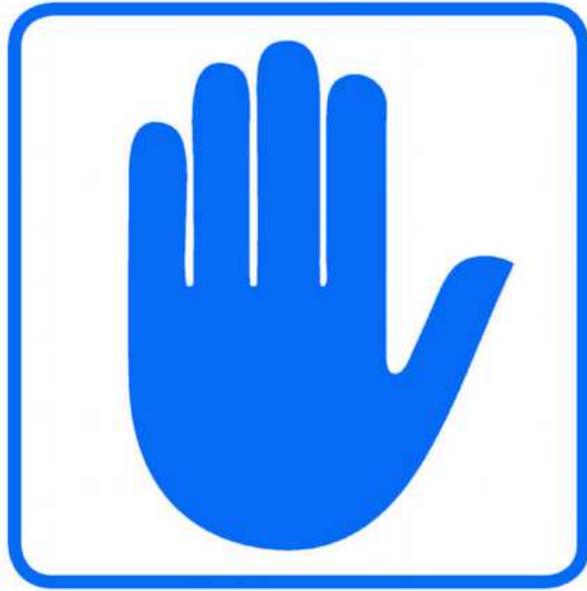

Capitalists own most and consequently have most power. The richest 10 percent in Sweden own at least 40 percent of all financial assets. On a global level the combined wealth of the richest 1 percent in 2016 overtook that of the other 99 percent.

# STOP!

We do not have democracy in the economic field, only in the political. As big finance gain power politicians, democracy and the nation loses.

In small matters I decide, like in this small-scale land. Tiny sweet flowers, a dried up piece of grassland and refuse from before. Chives that you are prohibited to eat as the earth is contaminated. Maybe the nettles will grow big.

# Land worth saving?

Right wing politicians and too many others believe  
that refugees and beggars destroy our land.

That has capitalism already done.

# Borders: a good idea

Democracy, parliamentary government and the welfare state are built in nations. It is we in a nation that has the duty to pay taxes and the right to get help in need. It is we who have the right to vote for parties and politicians in our land.

And it is we, who can decide to cooperate with other nations, can be generous and show solidarity.
